^{Service} Transformation Network

Reimagine your future. We can help you get there.

Backed by funding from the CMS Transforming Clinical Practice Initiative*, the GLPTN will utilize a fourpart, change package (shown below) to guide 15,000+ clinicians through the phases of patient-centric practice transformation necessary to effectively participate in future, value-based payment systems.

IMPLEMENTATION SCIENCE

We'll show you how to identify areas of your practice that could benefit from improvement; then help you determine which areas need the most immediate attention.

LEAN AND SIX SIGMA

We'll help you improve the flow of your workplace, so you can make changes to your processes as soon as you see the need.

PERSONALIZED POP HEALTH METHODS

We'll help you report data for patient groups with certain core conditions — such as diabetes, depression and heart disease — so treatments that benefit the population become clear.

CMS COMPLIANCE

We'll prepare you to meet existing CMS compliance programs (PQRS, MU, PCMH, VBM); get you ready for new performance-based compliance standards to qualify for incentives under MIPS.

*The Great Lakes Practice Transformation Network is supported by Funding Opportunity Number CMS-1L1-15-003 from the U.S. Department of Health and Human Services, Centers for Medicare & Medicaid Services.
