

## The American College of Physicians Support and Alignment Network

The American College of Physicians (ACP) is a non-profit membership organization of over 143,000 internists (generalists and subspecialists) with a mission to enhance the quality and effectiveness of health care by fostering excellence in the practice of medicine. With 65 local chapters in all 50 states, we have deep reach into adult medical practices nationwide.

As a leader in the field of practice transformation, ACP offers a suite of tools that helps practices implement quality improvement initiatives. In our new role as a Support and Alignment Network (SAN), we are enhancing these materials and developing new resources with input from ACP's patient and family partners. Clinicians and practices enrolled in Practice Transformation Networks (PTNs) receive **free** access to these resources to help them meet the goals of the Transforming Clinical Practice Initiative (TCPi).

### ACP's support activities include:

1. **Recruiting 6,000 ACP member clinicians to join PTNs across the country.**
2. **Supporting 30,000 clinicians in patient/family centered practice transformation** through:
  - ✓ **ACP Practice Advisor**<sup>®</sup>—a highly regarded web-based practice improvement tool, and
  - ✓ Other TCPi-aligned clinician educational offerings, such as our **Online High Value Care Cases**

These resources are available to PTN- enrolled practices **AT NO COST, including FREE MOC points/CME credit.**

3. Helping PTNs track the transformation progress of their enrolled practices with the **ACP Practice Advisor**<sup>®</sup> Dashboard.
4. Providing customized training and support on how to use these resources.
5. **Using ACP's established marketing and communications channels (estimated reach 120,000 internists and sub-specialists)** to disseminate information about and learnings from the Transforming Clinical Practice initiative.

**Our Partners:** American Board of Internal Medicine; National Partnership for Women and Families; The Institute for Patient- and Family-Centered Care; Stanford University's Clinical Excellence Research Center

For more information about the ACP SAN or to schedule an ACP Practice Advisor<sup>®</sup> webinar, please contact Cheryl Rusten at [crusten@acponline.org](mailto:crusten@acponline.org) or 215-351-2622
